

SALMAGUNDI

Judge Klatte reports nothing doing in his line today.

A light shower last night laid the dust and freshened up the atmosphere.

Mr. Gutridge returned from Jarbidge last evening. He says one of the mills is running and the camp looks prosperous.

For Sale cheap—One bedstead with spring mattress and two top mattresses all in good order nearly new. Inquire at this office.

The latest news we have from Fowler is that he may start tomorrow. Remember that the word is "may" not "will."

Courtroom, Highschool, and grammar School, souvenirs at Wintermantel's Jewelry Store.

For Rent—One or two rooms suitable for offices in Farrington building. Apply to H. S. Taber.

Dean Harrison, jeweler and optician, has moved one door east of the drugstore, where he will be glad to see all wanting work in his line.

A railroad car 103 feet long, weighing 196,000 pounds and with capacity of 150 tons, built for a Pennsylvania steel company is said to be the longest and most powerful ever constructed.

A 10 cent social will be given by the Parent's and Teachers' Co-operative Association at the grammar school tomorrow, Friday, Sep. 22, at 3 o'clock. Every one cordially invited.

The heating plant in Washoe county's new court house refuses to work and it will cost \$4000 to put it in working order. Somebody must have been hypnotized by the contractor.

Judge Farrington has issued a temporary restraining order preventing the reduction in freight rates in this state ordered by the commission on the 2nd of September. The injunction is returnable on the 30th of this month.

We have received a copy of the first number of the Chronicle, published at Metropolis, the new town in the eastern part of the county. It is an eight page sheet and contains cuts and articles descriptive of the surrounding country. We wish the Chronicle full measure of success.

It is said flying machines frighten horses worse than locomotives or automobiles. If this be true and Fowler ever reaches Elko, extra precautions should be taken to prevent runaways when his machine passes over the town. A little care may save some one from injury or loss of property.

Some of the grain in this county is being harvested, the latest in the season for years. The cool summer, it is figured retarded the ripening of the grain. In several instances the farmers have had to cut portions of their fields and let the rest go until this time. It is out of the usual. Heavy crops are reported from every piece of land that was planted last spring.—Appeal.

As the railroad into Eureka this winter is still an uncertain quantity and without that means of transportation coal for fuel cannot be considered, many Eureka men have already commenced arranging for mahogany and cedar wood for their winter supply of fuel. A number of teams are now engaged in hauling wood into town.—Sentinel.

There will be a good vaudeville act in connection with the pictures Saturday and Sunday night. Mr. F. O. McMillen, a banjo artist and monologist, has been secured by the management. Mr. McMillen was formerly with the Majestic trio that made such a hit here awhile back.

BUTTERFLY ARMY INVADES CARSON

Since last evening an army of butterflies has invaded this city. They are all moving south and east. The street have been literally alive with the beautiful brown insects. In places where the street sprinkler had been they congregated in thousands. Where they came from and where to is one of the mysteries of insect life.

Every butterfly was alike, all one color and nearly of a size, while brown is the prevailing color.

UNCLE SAM'S PRISON FOR WOMEN

A prison within a prison is being built at Leavenworth, Kan., and it will be the first exclusive federal prison for women in the United States. The new jail is being built within the walls of the United States penitentiary, but it will have a wall of its own and the inmates will be more securely shut off from the world than the more desperate men confined in the men's prison.

This inside prison will have room for about 500 women, there being now about that number in the various state penitentiaries in the United States, the government paying the state for their keep. These women have been convicted mainly of violation of the postal laws, smuggling, counterfeiting or white slaving.

While the women's prison will be under control of the warden, there will be a woman superintendent and under her a corps of subordinates. Because of being confined behind double walls, no guards will be necessary. It will be a rule that no men, especially men prisoners, be allowed in the woman's prison. The women will be more completely shut out of the world than cloistered nuns.

The women will be kept too busy to think about men, however, for upon them will devolve the making of all the bed clothing, tablecloths, towels and other things of that nature used in the prison and the repair of the men's clothes. They will make their own clothing of course, although no type of uniform has been decided upon. It probably will be a one-piece blue dress but without numbers or anything to denote the wearer is a prisoner.

The women will have their own chapel and various entertainments will be provided for them.

The Canadians yesterday defeated Laurier and turned down the reciprocity scheme. We have no information except the bare announcement of Laurier's defeat.

There are now 45 patients in the Nevada State Insane Asylum and the new annex is filled. The authorities are making a number of improvements to the institution, one of which now in progress replacing the old water section by constructing them of solid concrete and structural iron. The concrete floors of the toilets will also add to making the building fire proof and sanitary.—Gazette.

William Richards who shot and killed a prospector at Aurora several days ago has been held to appear before the Mineral county grand jury on the charge of manslaughter. He gave bail in the sum of \$500 and was given his liberty. Richards was one of the writer's pupils from 1880 to 1884 at Sutro.

Cause of Yawning.
Yawning is caused by a deficiency in the air supply to the lungs.

EFFECT OF THE CIRCUS ON A VETERAN EDITOR

The judge declares that he went home after the circus and dreamed that a big green snake, with pink tights on, was trying to swallow his umbrella. A lot of people were out on the street Tuesday looking for an airship. Some of the same people were immeasurably shocked because "Bobby" stayed up all night riding a polka-dot elephant. Well, no dotting mother was shocked and no wife, wives or sweetheart had to bear the brunt of disgrace or run around in their pajamas putting ice on a disconsolate topknot and no one has been around with any unpaid grocery bills. The birds sing just as sweetly and the trees are quite as green. Anyone who can say likewise get out your little Bible and come around and pray for our redemption; and to show our remorse we'll use it to start a fund to reform boys under nineteen that play poker.—Caliente Prospector.

FORMS OF OATH

A Chinaman has been thus sworn in: On entering the box the witness immediately knelt down, and a china saucer having been placed in his hand he broke it. The officer of the court through an interpreter then addressed him thus: "You shall tell the truth and the whole truth, and if you do not tell the truth your soul will be cracked like the saucer." A Mohammedan witness first placed his right hand on the Koran, put the other hand to his forehead and brought the top of his forehead down to the book and touched it with his head. He then looked for some time upon it, and being asked what effect that ceremony was to produce, answered that he was bound by it to speak the truth. The deposition of a Gentoo has been received who touched with his hand the foot of a Brahmin. Buddhists have been sworn by the "three holy existences"—Buddha, Dharma and Pro Sangha—and the devotees of the twenty-two firmaments, and a Parsee on the Zend Avesta, or by binding a "holy cord" round his body.—From the Law Times.

THE MASON KILLING

A few days ago we published a dispatch from Mason, Lyon county, giving the particulars of a shooting scrape in which Dr. Eikner was killed by W. J. Otter. A later dispatch says:

Fuller particulars of the killing of yesterday in Mason when Dr. Eikner shot and killed W. J. Otter and the sympathy of the community is with the man who did the killing instead of the one who is dead. Dr. Eikner is a man of about sixty years of age and has a young wife and child. He purchased an automobile for his wife some time ago and it is currently reported that Otter was frequently her guest in auto rides. The husband, some thirty days ago, warned Otter to stay away from his wife and not even to speak to her. Friends of both men warned Otter to stay away from the woman but he failed to heed the warning. At noon yesterday as Otter with two friends, were coming from the dining room of the Mason hotel, he was met by the doctor who immediately began shooting. The first shot took effect in Otter's side and the other two in the head. After the shooting the doctor was led away from the scene crying. He was not placed in jail but is around guarded by an officer.

Otter, who was the undertaker, was laid on his own slab by Undertaker Phillips of Yerington.

Mr. and Mrs. Cecil Booher will leave tomorrow morning on No. 4 for their home at Butte City, Montana.

"SNAKE" RETURNS TO INDIAN SCHOOL

"Snake", the Indian girl who was the sole grown survivor of the Indian battle of last winter and who recently escaped from the Stewart Indian School has returned. The love that she bore her little brother and sister was stronger than the call of the wild.

She returned to the school in the dead of the night and had all the appearances of having had a long and dusty walk. She was not questioned upon her return but yesterday she told one of the girls of the school that she did not know where she had been that she had walked and walked for a long time until she and her companion had reached a camp of Indians and there she had remained until she returned to the school.—Carson News.

POSTING THE DRUNKS

The law passed at the last session of the legislature compelling the district attorney to post a list of the chronic drunks in saloons and also a warning not to sell them liquor, is being enforced in several sections of the state. This is a good law.

It would not take any one in this city long to run up a list that should be posted. A half-dozen wrecks can be seen drifting like a derelict after a storm. They are useless to themselves and eventually will be a bill on the county.

It is all caused by booze. In such cases the victim to the habit has a good trade is capable of making a living and would have been industrious if the liquor had been shut off by law. Some are too far gone to ever bring back to usefulness, while others are approaching that stage. Every community is in the same condition.

Better post the drunks than send them to the poorhouse.—Carson Appeal.

HE GOT STUCK

A man named Wallenburg, in jail here awaiting the action of the grand jury on a charge of dynamiting a house in Mina, made an attempt to break last Friday night. He had succeeded in removing several bricks from the east wall of the jail, which he hoped would let him into the court house cellar. Before trying to squeeze himself through the opening he had disrobed and thrown all of his clothing ahead of him, but alas! when he had gotten all the lower part of his body through the hole he stuck fast at the shoulders, and could neither get back in jail nor into the cellar. He then yelled loudly for relief and the officers had much difficulty in pulling him out. He was badly lacerated by the broken bricks lost much blood in his unsuccessful attempt to escape.—Hawthorne Bulletin.

NOTICE TO CREDITORS.

In The District Court of The Fourth Judicial District of The State of Nevada, In And For The County of Elko.
In the Matter of the Estate of Samuel McMullen, Deceased.
